Commission Mailing - A Guide to Profits

WELCOME TO THE MAIL ORDER BONANZA! Here is the program that you requested. It is the complete kit for your "envelope stuffing" mail-order business. If you follow carefully and faithfully the instructions contained in this program you will shortly be making a very good income in your spare time, just answering your mail. Don't get discouraged if at first these pages are confusing. There have been many people before you who have had to sit down and think about this twice before it sank in. So again, read the whole plan, put it down, think about it, read it again and then read it over again. Each time you read you'll get a little more out of it. You'll get the whole picture soon enough and you'll be so glad you did.

COMMISSION MAILING - Commonly known as "Stuffing Envelopes" is a well-established approach used by many Mail Order Millionaires, who started out on a shoestring budget, with hardly a dime to their name. Their success proves the value of this method. The fact that you're reading this plan means that you have something in common with many other people, that is, that you desire to have an income at home. More often than not, that involves doing business largely, if not completely, by mail, hence the term "mail-order". You will find that for every person who wants to have a mail-order business of his own, there are 100 who want something that is simple, easy and not too demanding of their energy. Our "stuff envelopes" program fits the bill for these people and this is the market that you will be reaching into. There are 23 million such people, or about 69,000 new potential customers every day.

HOW TO START - Unless you have all the money in the world, start on a small scale. This can be done by placing an ad in the classified section of a publication which we will list later. Advertising, therefore, is the most important aspect of selling information by mail, for without it you will not be able to achieve your goal of earning \$1,000.00 per week mailing your salesletters. Obviously the best kind of people to mail your proposition to are those who ask for it.

This is the part that separates dreamers from doers. You need to understand this properly. There are no companies that will send you 100 addressed and stamped envelopes and \$100.00 for you to mail them. Forget it, if that is what you are looking for, because there is no such thing. Every business is in existence to make money, not give it away. Envelopes are being stuffed with circulars; sealed, stamped and addressed by machines at a rate of one dollar per hundred. Why, then, would any company send you envelopes to be addressed? It would cost more to package the material and send it on to someone like you who would do the work. But there is big money to be made in mailing letters and/or circulars. This being the case, you need the right kind of opportunity seekers' names to mail your letters to. A point to remember . . . There is no way to hurry this plan. You will not accomplish everything in a day. It takes a little time and when you finally get there, you will wonder why you did not do this earlier. This business is hard to start because of the patience needed, but once you reach a plateau, approximately in three or four months, it will start mushrooming and may get out of control!

READ, STUDY, ABSORB AND FOLLOW what is in this manual. Then apply your new-found knowledge. We learn to do by doing. As with cold water, you'll ease, not plunge, into it. **SLOW, EASY AND WISELY DOES IT.** You can do it.

The 'RETURN ENVELOPE' -

A word about the above. At first, you probably won't need to have them, for your clients. But, as your volume increases, you'll find it to your advantage to have some prepared for a better response. Create your own, using a #8 white envelope, similar to the one you received. Perhaps, a printer can help you with it. We have suggestions, write to us for assistance.

Our particular program is a real Cadillac in the mail-order business because it has been specially crafted to have the broadest appeal to the market we're dealing with. The advertising salesletter at the end of this book sells this plan. It has been market-tested and proven to give a minimum response rate of 10%, although it usually will pull closer to 20%. This is for every 100 of these circulars that you mail, you will be assured of getting at least 10 orders, or probably closer to 20 orders. Let's do a little arithmetic. Suppose you mail 500 of these pieces to your prospects, you will receive in return 50 to 100 orders of \$1,000 to \$2,000. Sounds unbelievable, right? It is perfectly possible for you to do this if you carefully follow instructions.

ITEMS NECESSARY FOR BEGINNERS

1. Letter opener
2. A separate checking account
3. Rubber stamp with your name and address

If you have a typewriter or you can rent one, it would be of help to you. However, you can get by without it, but please print, don't write.

GO WHERE THE ACTION IS - Pick up a magazine or newspaper and look over the ads. Notice all the ads for the same thing. Why are the there? They have to be making money or they would not be there. Right? Don't worry about competition in your advertising, or that the market will become saturated. Commission mailing is catching on like wild fire, and the more advertising that appears, the more popular it will become. When you advertise for names, you will receive high quality prospects for your offer, people who are interested in what you have to say. Your salesletter is welcomed and your customer is already half-sold before you even send him your proposition. This is the crux of the matter. That is not to say that your prospect will buy anything, but if your proposal is geared to what the customer is looking for, you've got a sale. So make sure you get your ad right up there with them - remember the golden rule of classified advertising: go where the competition goes and nowhere else.

WHAT IT BOILS DOWN TO IS THIS - Get an ad that appeals to a huge market so that the number of inquiries you get is large. To these people, send a salesletter that offers them something of real value, and something they are looking for. This is the winning formula. Of course, these few words describe something that is easier said than done, to say the least. For instance, how do you know where to huge market is? What do you say in your ad that will draw the reader and attracts his curiosity enough to answer your ad? The answer is to find what others are selling successfully and sell the same thing! What we have to offer in this plan is a salesletter that has been proven and we have found the ad that brings in inquiries from a Huge, Hungry Market. When your prospects read of the offer for instructions for stuffing envelopes, they recognize a good bargain and a good percentage will order.

I'm a firm believer in the old saying, "Anything Worth While Takes Work." What I'm going to tell you takes a little work. Not the old 8 to 5 grind, but a way that you would like to work.

If you don't have time — I suggest You Make Time! It's easier than you think. Share this with your husband, wife, and children and have them help you.

So you want to make money, right? One sure way to do it is to run one of the following ads over your name in one of the publications listed on page 6 of this manual. Remember we have found that the National Enquirer and the Globe Classified Group are the work horses of the mail order field.

EARN \$1000/thousand weekly stuffing envelopes at home Free supplies. Start immediately. Send stamped addressed envelope. Your name and address.

\$1000/THOUSAND immediately, stuffing envelopes. Free supplies. Rush stamped addressed envelope. Your name and address.

STUFF ENVELOPES, \$1000/thousand immediately. Free supplies. Rush stamped addressed envelope. Your name and address.

By using one of these ads, the envelope will come already addressed and stamped. No addressing or postage on your part.

ADVERTISING - How to count your words for advertising:

Each word costs money so don't put extra words in that are not necessary. Abbreviations count as a word, such as Co. - Inc. - etc., so if you are going to use abbreviations you might as well spell it out. Letters such as P.O. Box count as 3 words, so you do not need to use P.O., everybody knows Box 345 means P.O. Box 345. City, State and Zip Code in most publications count only as 2 words. Bold caps are always extra. The first word is automatically bold cap so this doesn't cost extra and if the publication offers this, (not all do) **USE IT**, it is worth the extra money to get your ad to stand out.

EXAMPLE: This ad is placed in GLOBE CLASSIFIED

\$1000/THOUSAND IMMEDIATELY STUFFING ENVELOPES. Free supplies. Rush stamped, addressed envelope: Royal Enterprises, 701-64 Front, Thorold, Ontario. L2V 1X6

(Words underlined **BOLD CAPS**)

17 Words at \$4.00 each

\$68.00

4 Words **BOLD CAPS** at \$1.00 additional

4.00

\$72.00 per month

This is for one month, but it should make you well over \$500 profit. Rather inexpensive for the amount of return compared to the cost of the ad.

Note - the above ads are some examples that can be used.
Or, create your own advertising as you see fit.

my plan really does work, and works BIG. So, if you want to write to me, I'll try and help you in any way that I can with my plan.

6

KEY YOUR ADS: Once you start branching out into more than one publication, you will need to key each ad in order to keep track of progress. The standard method of keying is the only one we recommend: use a code such as "Dep't." or "Division", followed by the key number itself. Use a different letter for each publication and a different number for each month. 'G' could stand for GLOBE CLASSIFIED 3 would indicate the March edition. Thus your address might read:

ABC Industries. Division P3, 100 Main St., Anywhere, Zip 32614

If you are operating out of a post office box, attach the key number to the box number with a hyphen. For example:

Jones Enterprises. Box 52-P3, Anywhere, Zip 42165

to rent a post office box is not expensive, and more comfortable, for some people, but not for others.

From our experience we have found the months of September, October, January, February and March to be above average in obtaining responses to classified advertising. August is an average month. April, May, June, July and December are somewhat below average. November is also a good month.

TIMING — Try not to reach your customer on the weekend or at the beginning of the month. Mail arriving in the middle of the week gets 50% more attention. Holidays are a poor time to reach potential customers. Try to complete the transaction, within a month, three weeks "perfect".

YOU MAY EXPECT TO RECEIVE about 500 replies to your ad if placed in a publication with a circulation of two million. For example, an ad in Popular Science (Money Making Opportunities section of the classified), which has a circulation of about 2 million, will bring in about 500 envelopes ready to be stuffed with your circular. This will return about 15% orders, each \$17.00 or 75 orders totaling \$900. You keep \$675 of this. It's easy to see how just having your ad in two good magazines can bring you \$1,000 monthly, every month, for as long as you keep mailing. As we said, if you wish to operate in this program, the salesletters are FREE. All you wish, for as long as you keep mailing them. To obtain them, just send us \$7.00 for postage and handling per hundred salesletters. You can rubber stamp your name on the salesletter in the space provided before mailing. Or you can get them printed locally if you wish. (Then you can have your name printed right on them.) Once you're getting orders, you'll want to expand your ad into other magazines until you're making as much money as you care to. **TO FILL** the orders, just send us \$5.00 for each order, plus a shipping label with your customer's name on it and your name in the return address portion, so your customer will know you filled the order. We'll fill the order for you by sending your customer our program for stuffing envelopes. It's a good idea at this point to make a carbon copy of your customer's name for your own records. That's all there is to it.

MULTIPLYING YOUR PROFITS - Profit-Multiplying What does it mean? It means that if you plow your profits back into the business, you can double and quadruple your assets in no time and secure national distribution. As the money starts to come in, you will be tempted to spend it. Don't. Invest every dime you can lay your hands on into more advertising.

TAXES AND LAWS - By law you have to report all your income. Just be sure you make all deductions you are entitled to. It is mandatory that you keep accurate records because of taxes. Since you are a self-employed businessman, you will find that you are entitled to a great many deductions that you otherwise would not be allowed. Some things that you may deduct are:

Advertising expenses, Postage, Printing, Supplies, Stationary, Equipment (typewriter, filing cabinet, etc.), Office Supplies, Rent, Checking Account Charge, Books and Magazines that help you with your business, Transportation and other expenses that are proportionally reasonable considering the volume of your business.

NOTE: Unfortunately, not all of your inquiries will get stamped, self-addressed envelopes. We suggest you obtain a box of No. 10 envelopes and a book of stamps to be ready for this. Again . . . deduct all the expenses you can.

Since advertising is an expense rather than investment as far as the IRS is concerned, you can spend all your profits on advertising this year, for instance, and pay no taxes. This would be an investment, since you will collect profit from your advertising next year. You simply deferred your profits a year. If you decide not to defer your profits and spend it this year, you have to pay taxes on it. It's up to you. But there is a great opportunity to build your business on a deferred profit if you choose.

THE TIME HAS COME - You will be pleasantly surprised. This is a proven money-maker program. It does work. Laziness is no excuse. Persistence and a strong desire to succeed, will do. Your time is valuable; make the most of it. Believe me, I Know What I Am Talking About. Don't make the mistake of disappointing yourself.

CHOOSING A BUSINESS NAME - One question many people ask is, "Do I need a license to operate this type of business?" The answer is no - if you do not use an assumed name. If you make up a name for your business that does not identify you by your own name you must register this assumed name in your county clerk's office. If you use your own name, such as Jones Enterprises or Jones Company, it is not necessary to get any special license or certificate to operate a mail order business.

... HOW TO FIND CLIENTS ...

LIST OF PUBLICATIONS - The following is a list of the best, most profitable ad media in which to place your ads. Write to them to get the cost per word rate so you will know the cost of your ad. The rate card will contain the very latest figures on rates, circulation, closing dates, etc. When you get the card, you need to study it. Pay close attention to closing dates. After one or two insertions, you will find it to be very simple placing your ad. You will have to pay in advance. Just ask for their classified rate card.

Place your ads in the business opportunity sections or money-making opportunities sections.

Do not run these ads under help wanted, as you are not hiring anyone.

We suggest the use of daily papers does not work and recommend you use national publications, a few of which are listed above. There are others. If they are too expensive use papers with a circulation of 10,000 or more. If your ad does not pull inquiries enough to make a profit change magazine, then, try again. You can get free, very useful advertisers guidebook from Morlock Adv., Agency, 188 Randolph St., Chicago, Illinois 60601.

2. DIRECT MAIL

MAILING LISTS**

You can use mailing lists instead of pulling out inquiries through classified ads to reach potential customers. You will find this method less expensive, but not necessarily better. Although individuals have been able to do better with a mailing list; and in some cases, worse, and useless. It all takes a little bit of time and patience, to get the end result.

You can obtain these lists from a mail lists brokers which will be found in your local yellow pages. Write to them, that you are interested in lists of opportunity seekers.

Brokers charge you \$15.00 - \$20.00 for each thousand (1000) names. Good mailing lists are available from the companies, you can find below. Send them inquiry, asking for info., and self addressed, stamped envelope.

You mail circulars directly to potential customer from your mailing list; you rented from mail list brokers. Then you follow the FILLING PROCESS as outlined on page four of this plan.

PROCRASTINATION IS A FAILURE'S DISEASE - Work is the key. You can indeed accomplish anything you want if you are only willing to work at it. Then why do so many people fail? The failure is built in the people. They would rather do what they want rather than try to fulfill the needs of others. Most people do not realize they are where they are because of themselves. In order for a person to achieve success, it requires a change within the person. It doesn't have to be a complete change, but a change in priorities and a change in attitude. We make all kinds of excuses for not changing. Since they cannot bring about a change in their attitude. Some people will call this or any similar proposition a rip-off. Of course they don't realize that they are ripping off themselves of what they could be.

WHAT DOES ALL THIS MEAN TO YOU? Since you are probably too busy earning a living to make any money, it means that obviously you are doing something wrong. You have to change your life style, your thinking, and above all, your actions in order to acquire wealth. Don't just read this, think about it. You are the one who must decide what you want. Don't just talk about wanting more money and better things in life. Do something about it! You'll achieve a negative attitude by accumulating excuses, and that will get you no where. Don't make success your goal. Success is a journey, not a destination. Make up your mind that you will succeed and never give up.

The company telephone number is not being revealed simply because, there just isn't enough time to devote to all of the calls and inquiries that would come in from people all over the country. Your questions would not get the fullest attention that it deserves.

Don't Quit

When things go wrong, as they sometimes will,
When the road you're trudging seems all up-hill,
When the funds are low and the debts are high,
And you want to smile, but you have to sigh,
When care is pressing you down a bit,
Rest, if you must - but don't you quit.

Life is queer with its twists and turns,
As everyone of us sometimes learns,
And many a failure turns about
When he might have won had he stuck it out;
Don't give up, though the pace seems slow -
You might succeed with another blow.

Often the goal is nearer than
It seems to a faint and faltering man,
Often the struggler has given up
When he might have captured the victor's cup.
And he learned to late, when the night slipped down,
How close he was to the golden crown.

Success is failure turned inside out -
The silver tint of the clouds of doubt -
And you never can tell how close you are,
It may be near when it seems afar;
So stick to the fight when you're hardest hit -
It's when things seem worst - that you mustn't quit.
